

Richtech Robotics Analysis

Ticker: RR | January 16th

Market Cap: \$751.70M

Looking for signs of an undervalued company (identifying improvement, not perfection)

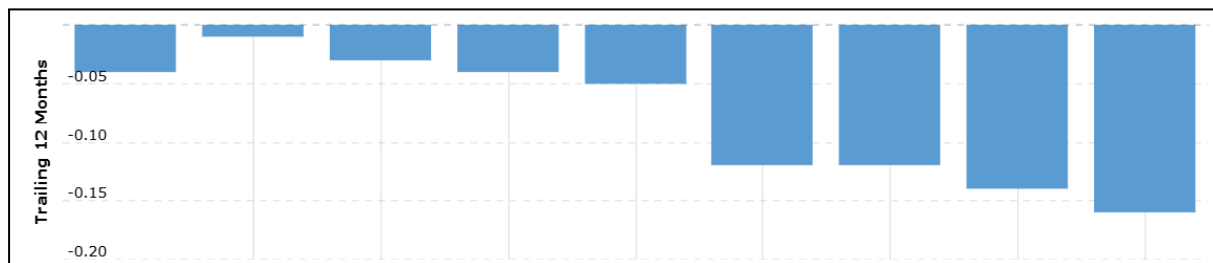

Grading System

Grade	Position Size
85+	2.5%
80-84	2%
75-79	1.5%
70-74	1%
65-69	0.5%
Less than 65	Avoid

Fundamentals:

Earnings Trend TTM - Shows profitability growth

First profitable year: 10 points	Loss narrowing/near break even: 8 points	Stable profitability: 5 points	Deepening losses: 0 points
-------------------------------------	---	-----------------------------------	-------------------------------

Source: Macrotrends (retrieved Jan 2026)

Richtech Robotics has experienced deepening losses for two years, meaning it earns less profit per outstanding share each quarter. It earns 0 points in this category.

Institutional Ownership - In before the big players, but not entering value traps

25-40%: 10 points	40-60%: 6 points	Over 60% or under 25%: 0 points
-------------------	------------------	---------------------------------

Breakdown	
1.71%	% of Shares Held by All Insider
22.04%	% of Shares Held by Institutions
22.42%	% of Float Held by Institutions
186	Number of Institutions Holding Shares

With 22% institutional ownership, Richtech Robotics does not currently have major funding from institutional investors. Although this signals that they may currently be undetected, making it possible to get in before the institutional investors, it is too uncertain. It earns 0 points.

Source: Yahoo Finance (retrieved Jan 2026)

P/B vs Industry - Shows over/undervaluation compared to industry

30-60% below peers: 10 points	10-30% below peers: 8 points	Within 3%: 5 points	Above peers: 0 points
-------------------------------	------------------------------	---------------------	-----------------------

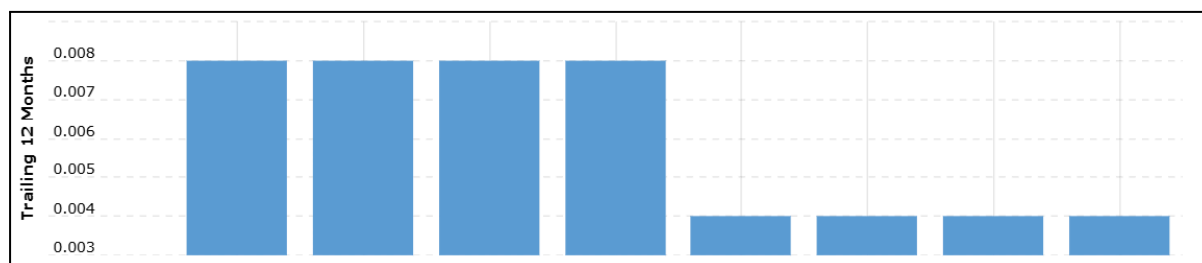

P/E	-
Forward P/E	-
PEG	-
P/S	188.73
P/B	4.96

Richtech currently has a P/B of 4.96 which is 20.9% below the specialty industrial machinery industry average of 6.12. It earns 8 points in this category.

Source: Finviz (retrieved Jan 2026)

Revenue Growth Trend YoY - Shows revenue growth over the years

Negative to flat to positive: 10 points	Explosive growth (30%+): 8 points	Stable growth: 5 points	Declining: 0 points
---	-----------------------------------	-------------------------	---------------------

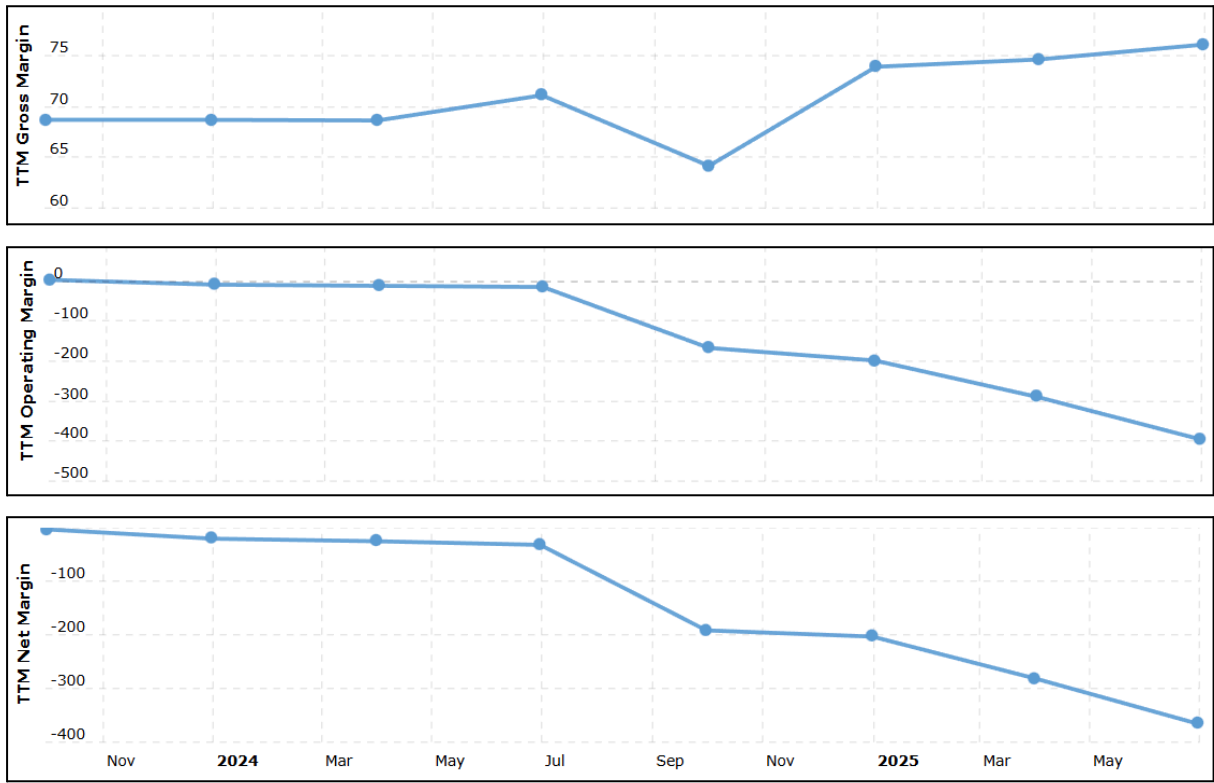

Source: Macrotrends (retrieved Jan 2026)

In the two years since Richtech has become public, its revenue has remained stagnant or declined. It earns 0 points in this category as it does not show signs of growth.

Margin Expansion - Shows a company is keeping more money from each sale

Expanding over 3% YoY: 10 points	Stable and rising: 7 points	Flat/declining: 0 points
-------------------------------------	-----------------------------	--------------------------

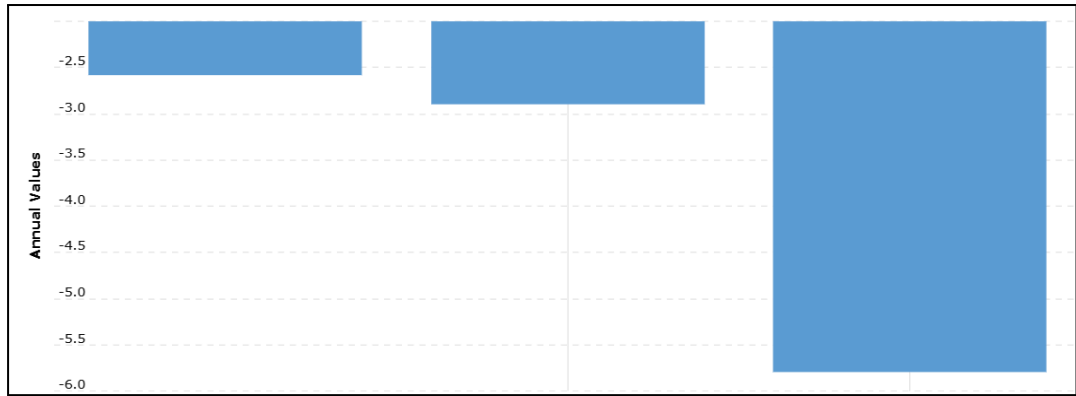

Source: Macrotrends (retrieved Jan 2026)

Despite Richtech’s increase of 2.2% in gross margins, it has experienced a decline in both operating margins and net margins, dropping from -14.51% and -32.69% to -395.30% and -366.13%. It earns 0 points in this category as it does not display any improvements.

Free Cash Flow - Shows how much cash the company has left after its costs

Recently turned positive: 10 points	Stable: 6 points	Negative but improving: 3 points	Negative: 0 points
--	------------------	-------------------------------------	--------------------

Source: Macrotrends (retrieved Jan 2026)

Richtech Robotics free cash flow has consistently been decreasing into the negatives, signalling it losing money each year that it operates. It earns 0 points as a decreasing negative cash flow is not sustainable long-term, increasing the chances of the company's bankruptcy.

Bonus

Inside activity: 10 points	Short interest dropping 10%: 10 points	Product/Contract news: 10 points
----------------------------	---	-------------------------------------

Source: Richtech Robotics (retrieved Jan 2026)

Since being founded in 2016, Richtech Robotics has released many robots including the ADAM, Matradee, Scorpion and DEX. It has showcased these robots at exhibitions like the CES, attracting the attention of many potential investors. It continues to demonstrate promising inventive products as well as improvements to its existing robots. Due to Richtech's current unprofitable state, its success heavily depends on the release of these robots and their deployment. It earns 10 points for its emerging and inventive products.

Richtech Robotics' Fundamental Score: 18/60

Technical:

Support/Resistance Zones - Shows key zones where trends may reverse

Bounced off lowest support (at least 5%): 9 points	Broken through lowest resistance or second support: 6 points	Midway between support and resistance: 4 points	Below lowest support or above highest resistance: 0 points
---	--	---	--

Based on its one year chart, Richtech Robotics has support lines at \$1.72 and \$3.05, with resistance lines at \$4.66 and \$7.09. At its current price of \$4, it is currently in between the \$4.66 resistance line and the \$3.05 support line. It has not reached the lowest support line of \$1.72 since its recent downtrend, and has continued to trade sideways after reaching the second support line of \$3.05. It earns 4 points in this category as it is currently midway between support and resistance, and its price can potentially fall back to the discounted price of \$3.05.

Chart Pattern - Identifies bullish or bearish trend reversals

Cup & handle, bullish flag, bullish triangle, or bullish wedge: 8 points	Double bottom or base breakout: 4 points	Range-bound but tightening: 2 points	No chart pattern or bullish pattern: 0 points
--	--	--------------------------------------	---

After a 260% surge in price, the stock price fell back down by 56%, demonstrating a shift from bullish to bearish sentiment. However, since its 56% decrease, it has continued to trade sideways, signalling a decrease in bearish sentiment. This has formed an unconfirmed double bottom. If the stock can continue upward and break the \$4.65 neckline, it would signify that bullish momentum has begun to take over. However, at this current level, it is uncertain which direction it will go. It earns 2 points in this category.

Price vs MAs - Compares current price to the average price during that period

Golden cross with price over 200MA but under 50MA: 8 points	Golden cross with price over both 200MA and 50MA: 6 points	No cross or price over 50MA: 3 points	Death Cross or Price under 200MA: 0 points
---	--	---------------------------------------	--

A golden cross has begun to form, signalling bullish momentum. However, the price sits above both the 200MA and 50MA, meaning that the price has already increased due to the bullish momentum. It earns 6 points in this category.

RSI (14) - Determines if it is overbought or oversold using the magnitude of price changes

0-30: 7 points	31-45: 4 points	46-69: 2 points	Over 70: 0 points
----------------	-----------------	-----------------	-------------------

With an RSI of 54.57, the momentum is relatively neutral. It is uncertain whether the bullish or bearish momentum will continue. It earns 2 points in this category.

Volume - Shows how many shares are traded during the period

Rising volume for 3+ green days: 8 points	Rising volume: 6 points	High volume breakouts: 3 points	Declining/flat volume: 0 points
---	-------------------------	---------------------------------	---------------------------------

Richtech Robotics has had many volume breakouts over the last month, however, the signals are mixed and there is no clear direction. Since it continues to display the market's interest in the stock, it earns 3 points in this category.

Richtech Robotics' Technical Score: 17/40

Richtech Robotics' Final Score: 35/100

Despite the recent excitement around Richtech Robotics' new inventions and its promising potential, it is currently unprofitable, has decreasing revenue, weakening margins, and a negative cash flow. It is also uncertain whether or not the stock price is currently at a discounted value or if it will continue to decline. Richtech Robotics continues to be a potential leader in the robotics industry, however, it is currently too early to invest in the company with its uncertainty of successful monetization.

Final analysis of Richtech Robotics: Avoid until it shows signs of improvement.
